Past Performance and Successes

- **D.O.D.**
In February of 2008 Innovar Group was engaged to support a joint venture between two DOD contractors to assist them in recruiting for a variety of technical skill sets surrounding their SAP implementation and other projects. Innovar Group was selected for this work based upon our ability to quickly source and screen skilled talent that matched our client's needs. We initially were provided with a project of placing a small team of SAP Developers. After experiencing our capability, this client engaged Innovar Group to fill over 100 positions over an eighteen month period of time. We continue to support this client and are a trusted partner.
- **D.O.E.**
Innovar Group is honored to be one of the awarded Women/Minority-Owned Small Businesses supporting the efforts of a DOE organization as they continue to expand their operations. Our firm quickly built a reputation for producing superior talent.
- **Commercial**
A large international software company engaged our firm over a multi-year period as a preferred vendor to assist them with their staff augmentation efforts throughout the country. During this engagement, we supplied them with S/W Application Engineers; Infrastructure Support; System Administration and related IT services. We are proud to have been recognized as the top performing support firm on this effort.
